The numbers say it all.
The HX-GD8 pounds out
an astounding max. power of
550 watts, while the HX-GX7
tops out at 520 watts!

TOWER of POWER

HX SERIES

Rhythmflex

Press the RHYTHMAX button to boost your excitement — even at low sound levels! This smart, JVC-exclusive technology enables the system to detect and boost a song's rhythmical tones, like the beats from bass percussion. RHYTHMAX intensifies your listening experience even when the song has no "beats", such as with classical music, because the "Loudness Function" automatically builds up the bass tones recorded at low levels, which are typically inaudible at low volumes.

Throbbing power. Stronger Beats. Endless tracks and movies from a 5-disc changer. The compact and stylish HX-GD8 unit offers all this and a wider range of playable formats than ever, including DVD-Audio/Video.

More Power, More Versatility, and More Excitement — the HX Series

With the amazing features of the HX-GD8 and HX-GX7 Compact Component Systems, discover a new world of exciting entertainment.

TOWER of POWER

HX SERIES

The HX-GD8 puts you in control of more dynamic, more sensitive, crisper sound than any ordinary CD player! DVD Audio's high specs and multi-channel compatibility will transport you to another dimension of sound experience.

DVD Audio

Front AUX/MP3 Input

An auxiliary input is conveniently located on the front panel. Enjoy sound from external sources, such as digital audio players.

5-DVD PLAY & EXCHANGE

Load up to five discs to scan through an expanded number of movies, albums, and tracks with ease. Unused discs can be removed or inserted during audio/video playback.

Maximum Power

MX SERIES

Ear-Blasting, Mind-Blowing Sound
Massive power from large-sized speakers and astounding bass from matching subwoofers deliver a musical impact boosted with even stronger beats via the RHYTHMAX button. The MX Series is all about stylish looks, a compact body, supreme sound, and endless excitement.

GIGA-TUBE Low-Pass Advanced Labyrinth Aero TUBE Subwoofer (MX-GB6)

A large-diameter subwoofer and an optimally-tuned long, thick duct give you substantial bass and rich, full mids. The Multi-Amplifier System comes with four separate high-power amps to individually drive the main speakers and subwoofers with minimal distortion.

MX-GB6

Compact Component System

- Power Output: Subwoofer: 170 watts per channel; Main Speaker: 80 watts per channel
- GIGA-TUBE Low-Pass Advanced Labyrinth Aero TUBE Subwoofers ► RHYTHMAX
- 3 x 2 Array LED Display ► Sources: CD, CD-R/RW, MP3 (CD-R/RW), Tuner, Cassette
